VOLUME IV, NUMBER 35 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA. THE COUNTY SEAT PAPER AUGUST 4, 1930

CAMP FIRE BENEFIT BRINGS LIBERAL SUM

The beautiful terraced grounds of the G. J. Rector was the setting of the benefit bridge tea given by the Natsihi Group of Camp Fire Girls last Tuesday.

There were 26 tables in all including bridge, which was the most popular, whist and mah jongg. In all 104 people were in attendance. Many others, unable to attend, sent donations. Over $60 was netted for the girls.

The prize winners were as follows: Bridge: Mrs. Hales, Miss Catherine Hogan, Mrs. Coombs, Mrs. Hieronimous, Mrs. Bradley, Mrs. Uren, Miss Clair Grimes and Miss Hussey. Whist: Mrs. Jacobsen. Mah jongg: Mrs. Hoge.

Prizes were donated by Dickerman's Drug Store, Harris' Drug Store Novelty Shop, S. Lee Leiter, Mrs. Ira Andrews, Mrs. Fred C. Worth, Mrs. Gordon Bettles, Mrs. Geo. L. Jones and Mrs. G. J. Rector.

Refreshments, consisting of open faced sandwiches, cake and punch were served at the conclusion of the games. Mr. Stambaugh generously donated the punch and the other refreshments were donated by the members of Natsihi Group and a number of friends.

Mrs. W. G. Richards has donated the use of one of the store buildings on Broad street to the Camp Fire Girls and the proceeds from Tuesday's party will be used to renovate the rooms. The girls plan to use the money for paint, etc. The labor will be done by the girls themselves with perhaps donated aid. They are very enthusiastic about their new adventure and are all looking forward with a great deal of interest in fixing up the building into an attractive meeting place. They are most grateful for the generous response to their benefit.

The girls in Natsihi Group are Nancy Jones, who is in charge of the group as assistant guardian and the following girls: Louise Schrieber, Margaret Rector, Ruth Rector, Katherine Celio, Beth Curnow, Margaret White, Zoe Tredennick, Pauline Rohrig, Ealine Sutton and Betty Beetles.

TURPENTINE FACTORY MAKES SHIPMENT ROSIN

Last Saturday saw the first shipment to go from the turpentine factory in car load lot. The shipment consists of 500 gallons of turpentine and 32,000 pounds of rosin.

The factory has been running full capacity. Thousands of cups are scattered throughout the pine forests and a large number of men and boys are employed gathering gum.

LOCAL PRODUCTS WANTED FOR STATE FAIR BOOTH

The commissioners in charge of the Nevada County exhibit at the State Fair are busy getting local fruits and produce. They have already received a fine display of peaches, pears and apples but there are many other products that can be displayed and anyone wishing information should call at the Nevada County Promotion Board.

The exhibit will cover farming, mining and recreation. The earnest cooperation of all is requested that the display may be made worthy of and a true picture of Nevada County products and recreation possibilities.

STAMPS DROPPING AT PRIMROSE PROPERTY

The ten-stamp mill at the Primrose mine began dropping stamps last week. Plenty of ore is in the bins and it will not be necessary to do any more stoping for some time.

In the meantime development work will be carried on which consists of drifting along the vein and crosscutting.

PEE WEE GOLF COURSE TO OPEN

The Pee Wee golf course is to have a grand opening on Saturday night. The work on the course will be complete by that time. Flood lights are being installed.

QUEEN LIL MINE IS OPERATING STEADILY

Operations at the Queen Lil have continued without cessation since early last Fall. The Queen Lil shaft is located on the Buffington property which in turn is surrounded by the North westerly portion of the Champion group. Development is confined to the Queen Lil vein at the present time. This vein is in the footwall of the Wyoming vein and has a general East West strike. That portion of the Champion Group north of Deer Creek is held under lease as is also the Buffington property.

The mine is equipped with an adequate plant consisting of compressor, hoist and all necessary mining equipment and a ten stamp mill. All equipment has been placed by the present operators. The shaft was deepened and new levels run both ways from the bottom. Stoping and development is now being pushed on three levels of the mine. Enough ore is being produced to run the mill one shift daily and it is understood that the operation is better than making expenses at this early stage in its development.

The operation is being conducted by Gordon M. Bettles and associates and is unique in the fact that the present operating crew are all shareholders in the organization. All interested are very hopeful as to the eventual outcome of the venture and believe that they will make a steadily productive and profitable mine.

SHERIFF CARTER BUYS D. A. DAILEY HOME

At a probate court sale of the Daley estate, Sheriff George R. Carter purchased the house and lot at the corner of Main and Court streets which was owned by the late D. A. Dailey.

The biulding is being razed and the lumber will be used on the Chris Butler ranch in the building of a new residence.

Mr. Carter may build on the lot later.

MINING EXCHANGE HEAD RESIGNS SAN FRANCISCO

Harry E. Epstine tendered his resignation as president of the San Francisco Mining Exchange at a meeting last Thursday. Charles E. Hudson was elected to fill the vacancy.

Mr. Epstine gave as his reason for relinquishing the post the pressure of personal business which he stated had suffered because the Exchange duties took up most of his time.

The new president has been in the brokerage business nearly 40 years and is one of the best posted men on the mining exchange.

NEVADA COUNTY PEAR SHIPPING AT PEAK

During the past week the shipment of pears from Nevada County reached four narrow guage cars in one day, which ise qual to two standard refrigerator cars. It is expected this rate of packing will be maintained for some time as the fruit is ripening rapidly.

The Colfax Fruit Growers Association has twelve packers and a number of graders at work. The S. A. Gerrard Company will commence packing next Wednesday. The Earl Fruit Company and the Pacific Fruit Exchange will also begin shipments during the coming week.

Pear prices have been weak and no immediate improvement seems probable. New York quotations are around $1200 a car, though many are selling as low as $1000.

GEORGE R. OSTERMAN TO SPEND VACATION HERE

George R. Osterman of Hollywood will be coming home this month after completing three month's work on electronics in the research and sound producing laboratories and film laboratories of all picture producing studios in Hollywood.

Mr. Osterman is still with the McGraw Hill Publishing Company.

He is the son of Mrs. George Scarfe of Nevada City and was reared to young manhood in this city.

DENVER STOCK EXCHANGE RECEIVES MINING JOURNAL

Denver, Colo.,
July 30, 1930.

The Nevada City Nugget,
Nevada City, Calif.
Gentlemen:

Through the courtesy of the Hoge Development Company we have received the special mining number of the Nevada City Nugget dated May 16, 1930.

This is a most interesting publication, and we wish to compliment you on this number.

We are especially interested in the directory of Nevada County mines, which you publish. Do yu know of any other such publication that will give us a record of mining activities in other counties in your state? We would appreciate having this information.

Very truly yours,
By RALPH M. DAVIS,
Secretary.

MANY IMPROVEMENTS NOTED ABOUT TOWN

A good deal of work is still being done around town tending to improve the appearance as well as the utility of many homes and business places.

The Elks Building has been improved by repairing the cement coating where it had become loose and cracked. It is also planned to lay a new sidewalk along the Pine street front at the present walk has settled in many places.

Mrs. Mary Gallagher has had some repairs made at her home on Broad street and is having a cement wall built along the front of the place.

The home of Mrs. Langley on Main street and Mrs. Mary Rossen on Broad street are being painted.

Cal Christensen had improved his Broad street home with a porch.

Mr. Fitzsimmons is having a new porch on his home painted, on winter street.

W. B. Celio has had an 18 inch cobble stone and cement coping placed on two sides of his property on Boulder street and Park Avenue. This gives a very attractive attractive appearance to the property.

Charles Avery is remodeling and repairing his home on Pine street and will have an attractive place when completed.

A deep cement gutter is being built along the York street side of the library grounds and the Kopp property to carry off the water during heavy rains. These walks have heretofore always been flooded in wet weather.

Dr. Ivey has just had his home painted and he and Mr. Schrieber have greatly improved the appearance of their places since they purchased and razed the building between their lots.

A. A. CODD SERIOUSLY ILL

A. A. Codd, prominent Reno mining man, is reported seriously ill in San Francisco. He is well known here, having been operating in this district for many years. He was planning to open the Yosemite Placer mine two and one-half miles North of town on what is supposed to be an extension of Harmony Channel.

The Nugget joins Mr. Codd's many friends in wishing him a speedy recovery.

MRS. LAMMON INJURED IN AUTO ACCIDENT

Mrs. Florence Lammon was badly cut and bruised when her car turned over on the Auburn highway near Higins Corner Friday afternoon.

Mrs. Lammon was returning from Berkeley and had experienced trouble with her steering wheel but was told at Roseville it was all right. In making one of the sharp turns her car turned on its side breaking the windows and windshield.

Passing motorists picked her up and brought her to Grass Valley where she was treated by Dr. Rood and returned to her home.

TO BUILD NEW MILL AT SPANISH PROPERTY

In our last week's issue it was our pleasure to announce that the Spanish mine at Washington had recently developed an ore body showing promising gold values.

That there is sufficient ore in view to warrant the erection of a reduction plant on the property is evidenced by the announced intention of that company to start the erectio of a mill at once.

The owners of this property are world known, experienced and practical mining men and the announcement of these improvements is a guarantee that this mine will be operated extensively in the future as the company has practically unlimited capital.

It means much for both the Washington and Graniteville Districts and for adjacent properties to have the Bradley interests so closely allied with them.

Mr. Phil Bradley will rteurn from Alaska about the 10th of this month and expects to visit the Spanish mine shortly.

SIERRA, PLUMAS, LASSEN COUNTIES FOR SEAWELL

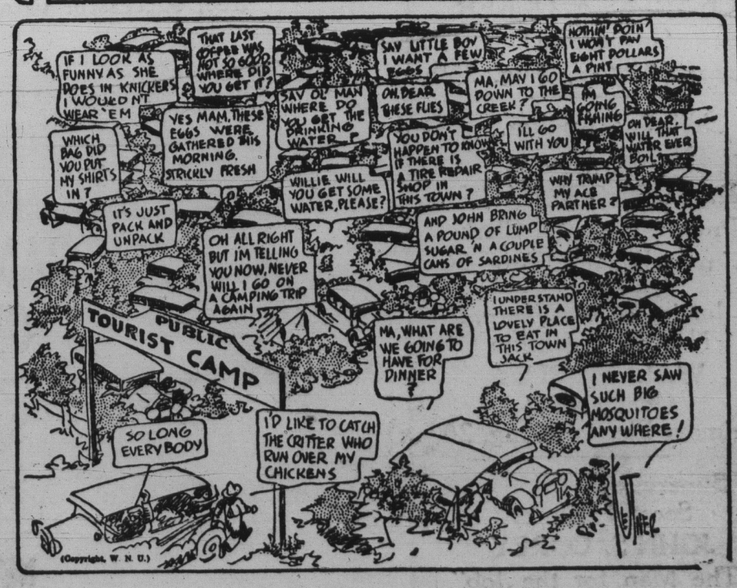
J. L. "Jerry" Seawell, candidate for re-election to the Assembly recently completed a campaign trip through Sierra, Plumas and Lassen counties. Everywhere he was cordially greeted and given assurance of support. The three upper counties were added to the assembly district since last legislature making campaigning much more difficult than formerly. The sister counties have heard such good reports from Nevada and placer counties on the Assemblyman that they see no reason fr a change.

Last week Mr. Seawell visited the various districts in his own county and found a warm welcome wherever he went. In Roseville the "Placer Herald" of Auburn says that Seawell's friends predict he will carry the railroad town two to one.

This week is being spent by the Assemblyman in eastern Nevada county. He is leaving the best to the last and will greet his old friends in Nevada City and Grass Valley next week.

Two more important endorsements have been added to the list with the United Veterans of the Republic endorsing Seawell at their meting in Oakland recently. He was the only Assemblyman in California to be endorsed by the organization. Last week he received the endorsement of the Retail Lumbrmen.

Tourist Camps Are Buzzing



IF I LOOK AS FUNNY AS SHE DOES IN KNICKERS I WOULDN'T WEAR 'EM
THAT LAST CHICKEN WAS NOT SO GOOD. WHERE DID YOU GET IT?
SAY LITTLE BOY I WANT A FEW EGGS
HOTHIN' DOIN I WON'T PAY EIGHT DOLLARS A PINT
OH DEAR THESE FLIES
MA, MAY I GO DOWN TO THE CREEK?
IN GOING SWIMING
OH DEAR WILL THAT WATER EVER BOIL?
SAY OL' MAN WHERE DO YOU GET THE DRINKING WATER?
YOU DON'T HAPPEN TO KNOW IF THERE IS A TIRE REPAIR SHOP IN THIS TOWN?
I'LL GO WITH YOU
WHICH BAG DID YOU PUT MY SHIRTS IN?
WILLIE WILL YOU GET SOME WATER, PLEASE?
WHY TRUMP MY ACE PARTNER?
IT'S JUST PACK AND UNPACK
OH ALL RIGHT BUT I'M TELLING YOU NOW, NEVER WILL I GO ON A CAMPING TRIP AGAIN
AND JOHN BRING A POUND OF LUMP SUGAR 'N A COUPLE CANS OF SARDINES
I UNDERSTAND THERE IS A LOVELY PLACE TO EAT IN THIS TOWN JACK
YES MAM, THESE EGGS WERE GATHERED THIS MORNING. STRICTLY FRESH
PUBLIC TOURIST CAMP
MA, WHAT ARE WE GOING TO HAVE FOR DINNER
I NEVER SAW SUCH BIG MOSQUITOES ANY WHERE!
SO LONG EVERY BODY
I'D LIKE TO CATCH THE CRITTER WHO RUN OVER MY CHICKENS
(Copyright, W. N. U.)

MINING PROGRESSING IN BADGER HILL DISTRICT

Mining is progressing at a satisfactory rate in the Badger Hill Mining district. Twenty men are employed in this section taking out the precious metal.

Many small mines are situated in the Badger Hill mining district with fine prospects for good producers as they are developed.

Copper and silver as well as gold are found on some of the properties.

The Siberia mine is being worked steadily by Oakland interests with Mr. E. B. Frost as superintendent.

RISING SUN MINE TO RESUME OPERATIONS

E. C. Klinker has made all preparatory arrangements to sink a two-compartment shaft on the Rising Sun Claim at Colfax.

This shaft will connect with a winze from the 300 level of the Big Oak Tree mine in which operations were excessive on account of inefficient underground openings.

The Big Oak Tree belongs to the Werry and Russell interests and was at one time the bone of contertion in extensive mining litigation in which the most expert legal talet was involved. The case of Valentine vs. Valentine, two unrelated New York mining men, revolved around these properties for many years before a final settlement was reached.

The Big Oak workings are not extensive; hardly more than 300 feet in depth being reached, but the ore, like that of its neighbor, the Rising Sun, is cut through by numerous small faults and is of unusual richness.

FISHERMEN TRYING TO STOP GRAVEL MINING

There is a strong movement to attempt to stop gravel mining on the Klamath and Trinity rivers. Such mining makes the water roily and interferes with fly fishing. Turbidity of the streams does not interfere dith the health nor with hatching of the fish, but it is beneficial. In the fish hatcheries, in the tanks of clear water, the little fish get diseased and it has been found necessary to stir in mud to rid the fish of parasites.

It would seem to be poor public policy to compel mines to cease operating and to increase the number of men unemployed, in order to affort more pleasure for the city anglers.

In this case, at least, business for the residents of that part of California should be given preference over the pleasure of the fly fishrmn.

The miners have asked the California Mining Association to help them in their fight to continue mining.

SIERRA CITY MINE AS CLOSE CALL BY FIRE

The Monarch mine near Sierra City had a narrow escape from being destroyed by fire when the hoisting building caught fire from a spark from the boiler smockstack.

It occurred when the miners were all at dinner and a strong wind was blowing, but was discovered in time to be put under control. No damage was done.

N I D COMPLETES ASSESSMENT WORK

The land assessment work for the current year has been completed and September 15th set as the date when th board will meet as a board of equalization, after which the tax rate will be fixed. Many discrepancies have been corrected and it is felt that tax disputes are about cleared up.

Manager Durbrow reported at the meeting that there was an increase of 10 per cent in the use of water this season over last which he feels is very gratifying in face of the many obstacles presented during the past year.

Ignition Parts and Accessories at Miner's Foundry. 24tf

AIRPLANES MAKE VISIT TO NEVADA CITY SAT.

The residents of Nevada City were attracted Saturday afternoon by the roar of three airplanes flying low over the city. They came from the east and after flying low circled the city severay times then flew over the proposed airport on Wet Hill approaching the port from every direction.

One of the planes contained Lieut. Allen Chapman, son of Dr. and Mrs. C. W. Chapman of this city. He dropped a message addressed to the Chamber of Commerce which read: The approaches to your proposed landing field are excellent. (Signed) Lieutenant Allen Chapman. The message was in a canvass container used by the government for such purposes. One of the messages was pcked up by Dr. J. H. Suss on Broad street and the other by Mrs. aKtherine Williamson near the Colley residence on Nevada street.

Th other planes were piloted by Lieutenants Nelson D. Jenkin and Byron Von Cott. The three planes left the airport at San Francisco Thursday afternoon and flew to Reno. Friday mornin gthey flew to Salt Lake City from which city they left early Saturday stopping at Reno for gas.

After flying to San Francisco he returned by auto to visit his parents and to accompany home his wife and family wh ohave been guests at the Chapman home for the summer.

COLOMBIA MINE BONDED BY ARIZONA PARTY

The Colombia mine which is situated in the Sierra City mining district and which belongs to the Coughlin brothers has been bonded to Mr. A. M. Campbell who has arrived there from Arizona..

With sufficient capital and the right kind of management the Colombo will undoubtedly be among one of Sierra county's mines in the near future.

NICK NANKERVIS PASSED AWAY IN VALLEJO

Nicholas Nankervis, a former Grass valley boy died suddenly last Sunday of a heart attack while swimming at Vallejo where he has been living since he left there a few years. He is survived by a wife and three-year-old daughter. A son by his first wife, Jimmy Nankervis, resides here in Nevada City with his grand parents, Mr. and Mrs. George W. Erway.

BREAKS ANKLE WHILE ON FISHING TRIP

Mrs. Minerva Wright suffered a fractured ankle on Sunday when she slipped and f llewhile on a fishing trip. Holmes' ambulance took her to Dr. Werner's office when the ankle was X-Rayed, then to the Nevada City Sanitarium where the injured member was set. Mrs. Wright was able to return to her home the same afternoon. About thirteen years ago Mrs. Wright a similar accident occur to the same limb.

NEVADA CITY BLUES DEFEATS N C FORESTERS

The Nevada City Blues defeated the Nevada City Foresters in a game of baseball at Cashing's Field Sunday by the score of 14 to 7.

The games was one of those snappy exhibitions of the national pastime which was full of thrills all during the play.

There was a large crowd who enjoyed the game. The Foresters were handicapped by reason of several of their important players being absent.

Pitching for the Blues was Spencer White and Giani twirled for the Foresters.

BOYS UNDERGO OPERATION

Three small boys underwent an operation for the removal of tonsils at the Nevada City Sanitarium last week. The patients were Craig Davies, Jimmy White and Bud Angove. Dr. R. F. Werner successfully performed the operations and the small boys were able to return to taeir homes the following day.

JUST HOW GOOD IS A TAX TITLE

Editor of The Nugget—:We were talking with a lady last week in a neighboring county, who had been induced by her friends to buy a piece of real estate—a house and lot inthe neighborhood, upon which the taxes had not been paid and which had consequently reverted to the state.

The worst part of it was that she had been advised that her title would be good in the event of purchase, by those whose position in county affairs inferred that they should have known better.

So she bought the tax tilte and after due course, received a deed from the tax collector for the property.

She had been in possession but a short time however before the original owner was appraised of the sale and appeared on the scene As no amicable arrangements could be made, a suit was brought resulting of course in the repossession of the property by the original owner upon payment of the back tax and penalties to the aggrieved lady, who was out of pocket for attorneys fees and costs of court.

Under the law, if taxes on property are not paid over a period of five years, the property is sold to the state. We will assume that it is a mining claim and that you notify the tax collector of your desire to but it in. The tax collector then has the property advertised for sale to the highest bidder. The original owner, if his whereabouts are known, is also advised of the sale

If no one appears at the appointed time ao bid in the property a deed is delivered to you by the collector upon payment of what is due the county and state.

Now, if you have the patience to sit on the property,a s it were, for the next five years, and you have undisturbed possession during that time and there happens to be no technical flaw in the transfer proceedings, which some good attorney would be able to ferret out, you will then be reasonably safe in calling the property your own.

But, if the original owner should come around in the meantime—at any time in fact prior to your five-year limit and cause any interference or trouble—even though four years and eleven months had elapsed, then your five year redemption period becoms automatically extended from the date of such interference.

This may be kept up indefinitely to the great enjoymen of both parties, unless you should lose your patience and annihilate your adversary. This would be called justifiable homicide.

You may even have developed the claim and found a promising mine on it, but if you do it it will be just too bad for you because the original owner or his relations will probably learn about it and take it away from you.

In the light of utmost fairness, it would seem that if an individual did not think enough of his property to pay the taxes on it for ten years, which the law allows, he should lose it, withuot granting him the perpetual privilege of torturing a legitimate purchaser.

It would indeed seem just that if taxes were not paid over a five year period prior to the sale to the state, the property should be subject to confiscation and title would be obtained by the purchaser at the time of sale. In this way much unnecessary annoyance and watchful waiting would be done away with; property would be utilized for the benefit of all concerned, instead of lying dormant awaiting th passage of time.

There are many people who are familiar with these existing conditions who will have nothing to do with a tax sale.

What a grand expanse of opportunity lies here for reformers, particularly the deyed-in-the-wool type who want to reform everybody but themselves. Let them get busy and reform some of our damphool laws in a field that is almost without limit. In this way they can vent their spleen on something that will be of real benefit to civilization.

TAX PAYER.

—0—

CHARLES G. JOHONSON FOR TREASURE COMMITTEE

When you see the "(1)" before his name, you'll know you are voting for State Treasurer Charles G. Johnson.

Augustus J. Johnson, Los Angeles negro seeking the Republican nomination for State Treasurer against the incumbent, was placed in the race for no other purpose than to confuse voters by the similarity in names. Bothmen are known to their friends as "Gus" Johnson.

These statements were made here today by the Charles G. Johnson-for-Treasurer Committee, which declared that it holds sworn affidavits in support of the charges. A statewide campaign to inform voters of this fact was announced by the committee.

"We have no quarrel with Augustus Johnson because he is a colored man,' 'said the committee. "This is a free country, any any citizen has a right to seek office, regardless of his race, color or previous condition of servitude.

"But when a candidate deliberately permits his name to gon on the ballot to trick voters by reason of the similarity of his name and that of the incumbent official, we feel that such political trickery should be repudiated by fair-minded voters.

"Consequently, we invite every voter who believes that State Treasurer Charles G. Johnson has done a god job during his 8 years in office , and that he should be reelected, to watch closely for the mark "(1)" in front of his name on the ballot and cast their vote accordingly.

"State Treasurer Charles G. Johnson has been able to earn $15,000,000 in interest on state funds during his service since 1922. He has been able to sell bonds at premiums aggregating more than $609,000. He has the unqualified endorsement of more than 200 leading bankers and financial leaders of California.

"If these facts count for anything the present state treasurer deserves the supprt of every thinking citizen and he should be returned to office by an overwhelming majority."

GEOLOGISTS FROM STATES GATHER AT BUTTE CITY

By Carl J. Trauerman

The association of American state geologists, composed of chief geologists or heads of geology bureaus in forty-ne states, will hld its annual conference in Montana this Auust, according to President Francis A. Thomson of the Montana school of mines. Dr. Thomson, who is directr of the state bureau of mines and geology, will be host to the association and has planned a program that includes a six-day tour of the Montana Rockies, with visits to both Glacier and Yellowstone parks, and a business meeting and banquet in Butte.

According to Dr. Eugene S. Perry, head of the geology department at the Montana school of mines, who is assisting Dr. Thomson in arranging for the meeting, about twenty of the state geologists are expected to attend ,although all answers to questionaires sent out have not been received.

The proposed tour now being considered by association members begins on Sunday, August 24, with a brief trip of great geologic interest through Glacier park, from the entrance hotel to Goin-to-the-Sun chalet.

On Monday the geologists will travel by train or automobile to Butte, passing close to the Ponders oil field ,and going through the Little Bet mountains, the Helena region and the Granite mountains to Butte.

Tuesday the party will investigate the Butte mines and the geologydepartment of the Anaconda company; following a short automobile drive in the afternoon, the business meeting and annual banquet will take place.

On Wednesday the geologists will travel to Yellowstone park, where they will spend Thursday visiting the chief points of interest and observing the unusual geological features.

On Friday they will proceed from the Canyon hotel to Cody, Wyoming, where the conference will terminate at noon. Dr. Thompson hopes that they may decide to stay the first two days in Glacier park and then fly by plane to Butte.

The executive committee of the association of American state geologists is composed of E. F. Bean, president, director of the Wisconsin state geological and natural history survey; George C. Banner, secretary, Arkansas state geologist, and Dr. Elward B. Matthews, Maryland state geologist.

FRENCH CORRAL ITEMS

FRENCH CORRAL, Aug. 7—(Special to The Nugget).—With clouded skies so often, the weathermen are predicting an "early fall." Mornings and evenings are quite chilly, but as yet our section has not been treated to a drop of rain.

So far we have been luck yenough to escape forest an dtown fires, but as we had our measure in full last year, we hpe to be spared this trouble this year.

The luxury of all kinds of fresh fruits is ours. Say, did you ever stop to think what luxurious living we county folks enjoy? First and best, fresh air and water, then milk, cream, butter, eggs, fowl game, fruits, vegetables and so many good thins. And we are spared that eternal rush of catchin a car or train or boats. We could mention so many pleasures that are ours and we accept them every day with so little appreciation. Let's see, who's been and gone for the past week?

Mr. and Mrs. D. Mardon, Mrs. K. Renchler and Mr. and Mrs. Joe Wagner took their departure for their city home after spending a happy week in camp visiting friends and going over the old haunts of youth.

Mr. and Mrs. Guy Robinson, and Mrs. K. Church were Friday visitors. Mr. Robinson is in the race for supervisor of the Fourth District.

Mrs. W. Moulton and daughter, Louisa, made a trip to MaMrysville Friday to bring Mr. Moulton home. He has been under treatment for a sprained hip.

Mr. and Mrs. E. Chatty and children, who have been spending several weeks with relatives in French Corral, returnd to their home in San Francisco Friday.

Joe Swazey was down from the Salmon mine on a short business trip Friday.

Dr. and Mrs. Albert Villain and son, Dr. Gerald Villain and sister Mrs. Bertha Woodman dropped in Saturday morning. They were on their return trip from Lake Tahoe, where they had been spending their vacation. The Villain family were old residents of French Corral, Dr. Albert Villain and family reside in San Francisco and his sister. Mrs. Woodman has a home in Walnut Creek.

Mr. L. Dudley was a Saturday visitor.

Mrs. K. Sullivan, Mrs. Adele Browning an sons Donald and Willie were San Juan visitors Sunday.

Mrs. Adele Browning and little sons, Walter, Melvin and Donald, accompanied Miss Minnie Clerkin to Pike City Sunday evening where they will enjoy a camping party for a few days.

Mr. J. H. Haslett and daughter, Henrietta, and son Lloyd and Mr. G. Orr were Sunday visitors. Mr. Haslett has purchased the property known as the Robert's place. and will soon move from Hammonton to make his home here.

Mr. Bobbs and family of Shady Creek visited her sister, MrMs. F. Clark, Monday.

Thos. Meyers went to Nevada City Monday.

Mr. and Mrs. J. W. Culver visited relatives in Tyler Sunday.

Mr. Haslett and son, Lloyd, were business visitors Wednesday.

J. W. Culver made a trip to Grass Valley Wednesday.

(Continued from last week)

After a week of delightful weather, we are at the end of July, to say, the hot weather of which we complain, is considered just right by people who come from San Francisco. They say it is a treat to get away from the cold and fog and come up here to get warmed up.

Autos filled with campers pass continually. Some remain to enjoy a few days of our delightful climate, and to live over again the days of their youth in going over the old haunts.

Our grocer and leading businessman, W. E. Moulton, is suffering from a sprained hip, and for the past week has been in Marysville under special treatment.

Mr. Kendicke who represents the Chevrolet Auto Co., made a business trip from Nevada City to this section Friday.

Harry Moynier of Oakland, one of our old-time residents, who, with a party of relatives, has been sojourning in Harris Meadows for the past several weeks, visited his sister, Mrs. A. Browning Friday, while en route to Bridgeport Resort where he will visit his sister, Mrs. A. Kneebone.

Mrs. V. Harris and children, who have been visiting her sister, Mrs. A. Browning, went to Bridgeport Wednesday, where she will visit with her sister, Mrs. A. Kneebone, before returning to her home in Berkeley.

Miss Lucretia Hall of Nevada City wasa Friday visitor.

W. P. Clerkin looked in at his home here Friday. Mr. Clerkin is very busy hauling hay for his cattle.

Mr. and Mrs. Mardan and Miss. Mardon's sister, Mrs. R. Renchler and their nieve, Mrs. Willah Sinclair Wagner, her husband, Mr. J. Wagner, all of Oakland, have been camping for the week under our beautiful pines and oaks. All but Mr. Wagner, are old time residets of Sweetland, Burchville and French Corsal and ase enjoying the home coming in camp life.

Ms. and Mrs. Steve Kyle if Stockton spent Sunday in camp with their resatives.

Rev. P. O'Reilly held servile in the Catholii churih at Birrhville Sunday.

Thos F. Fogarty and son Verne of Marysville, had business in French Corrall and Burchville Sunday.

A well has been sunk on the school ground at Birchville. It is made near the roadside, so that the weary travellers, too, may obtain a refreshing drink.

Mr. F. Bear of Smartsville is sohealth. This is the right place.

Mr. and Mrs. Chloutier of Oakland visited Mrs. Cloutier's aunt, Mrs.W. E. Moulton, Monday. Mrs. Cloutier, who inn her girlhood was Dorothy Smith, is a native of French Corrall.

H. Browning has gone to the mountains above Pike City where he will be in the employ of Chas. Buhl.

Mr. and Mrs. E. Chatty and children, who have been visiting Mrs. Chatty's mother, Mrs. J. W. Culver, have been visiting with relatives at Drum Flower's home. They will return to their home in San Francisco today.

Mr A.. Wolbert of Oakland, who visited in French Corral some years ago and is interested in a river claim near Bridgeport, was a visitor Wednesday.

E. Fournier of Downieville called on his cousin Mrs. A. Browning of this place Wednesday.

Mr. and Mrs. H. Moynier and Mr. and Mrs. J. Bush of Berkeley ,who are visiting Mr. Moynier's sister, Mrs. Kneebone of Bridgeport, paid a visit to his sister, Mrs. A. Browning of this place Wednesday.

NEWSPAPER VALUE IS TOLD BY UNIVERSITY LECTURER

BERKELEY, July 25.—Newspaper advertising can play a great part in assisting business through its present troubled waters, is the belief of California extension division lecturer in economics.

"Advertising isn't meant to be sasonal from the standpoint of paying only this or that season", declares Watson. "Sustained advertising the year around builds a confidence that it not easily shaken. Steady trade built through advertising cannot be established through any other method."

Watson will express his views on advertising in a series of lectures to be given under the auspices of the University of California extension division this fall. More than 400 classes in various subjects as well as correspondence study will be inaugurated throughout the state in August, it is announced by extension officials.

FASHIONS for the SMART WOMAN

S3

PARIS SPONSORS SHORT SLEEVES

The short sleeve is another of this season's fashions for which women might well be grateful, for it is as comfortable as it is distinguished. The box-pleated frock shown above, with its feminine frill-edged vestee, has pleated sections added to its short sleeves.

The short-sleeved frock of flat crêpe at the right is distinguished by the diagonal seaming of its inserted waist section and circular skirt flares. Dainty shirred petal-frills of organdie are used to soften the bloused bodice and to form cuffs on the short sleeves.

DIX BUTTE OPENS RICH GRAVEL IN CALIFORNIA MINE

Another of the old river channels in Butte county, California, has been opened by the Dix Butte Mining Co. and will be producing gold in a few weeks. Frank Maloney, president of the company, was in Reno with several ounces of coarse gold extracted from the gravel struck in araise from the tunnel through which operations will be conducted, which he brought from the mine. The display included several nuggets containing $5 to $25 each.

The Dix Butte channel is about fifteen miles north and west of the Genii property and cuts the great Willard dike at its widest point. This dike is one of the principal sources of gold contained in these ancient rivers. Wherever they have been opened a rich harvest of gold has been made.

Six men, placer miners of experience, worked for eight years to develop the Dix Butte channel, driving a crosscut tunnel 2,400 feeta nd a raise 185 feet to reach the gravel. Two years ago, with resources exhausted, they sought financial aid to complete the work. The Dix Butte Mining Co. took over the property and supplied funds for new equipment. The original owenrs, Harry Sheehy, Andrew Engstrom, Carl Slocum, J. M. Kellar, John Sund, and A. Benedium, stayed with the project and became employees of the company.

The Dix Butte Mining Co. drove the tunnel ahead 900 feet to a point under the channel and raised up to the bed of the river. The gold shown in Reno by President Maloney was the first extracted, from gravel struck inthe raise. The gravel contains a fine black sand that President Maloney says runs $1,000 a ton in gold and platinum.

The company has water power fromits ditch and expects to start sluicing some time in September when sufficient water is available. —Mining Press.

ENGLEBRIGHT REVIEWS LAWS AIDING MINERS

The heavy approporiations for advanement of the mining industry, federal road construction and national park development, projects which benefit not alone his congressional district but California and the west generally, were secured by Congressman Harry L. Englebright, during the session of Congress just closed.

Englebright is the assistant Republican whip of the house and one of the most active members of the body T.he representative, a mining engineer, majored in mining legislation.

In a review of his accomplishments, Englebright reports, in part, as follows:

"For the mineral mining investigations, $165,000. This represents an increase of $20,780 over the amount obtained last year. This money is to be expended by the United tSates Bureau of Mines for the investigatins and the studies concerning the mining preparation, treatment and and for a detailed study of the present mining methods and costs of mining operations.

"'Due to the increased cost of gold mining operatons, the study of the question of mining methods and costs it at present of outstanding importance to the old mining industry of California. It is believed much good can be accomplished along the lines of reducing the present cost of operations in California.

"For the investigations and supplying the information concerning the economic problems of the mining industries, $307,600. This is an increase of $22,600 over the amount obtained last year. This appropriation will be used by the United States Bureau of Mines in the collection of statistics of mineral resources ,for publishing reports, and for the furtheir investigations of the question of how to lessen and prevent mine accidents and fatalities.

"For the geologic surveys, $400,000. This is $50,000 more than last year's work. The increase will make possible the additional geologic survey work in California. Many of our older gold-mining localities are requesting new geologic studies and surveys, utilizing all the facts revealed by the mining developments carried out since the first geologic surveys were made.

"Likewise, our new and undeveloped districts are in need of initial geologic studies.

"One of the ever present problems of he California gold mine operator is the research for new ore bodies, to take the place of those which are at or near exhaustion. In this search, a knowledge of the geology of the locality is one of the vital factors. The solutions of problems are rarely to be found in one group of claims. The entire district must be the unit of study. This is a type of work that cannot be done for the individual mine itself, and is properly a task for the government.

For the fundamental research in geologic science, $100,000. The geologic survey will use this fund to expand its activities in its research into such problems as ore-forming processes, the relation of ore deposits to intrusive rock, etc. This work is of importance to the mining regions of California.

"My bill, H. R. 2827, to exempt from taxation the incomes derived from gold mining is before the ways and means committee of the house, and has much influential support. Since the outbreak of the World War the prices of all commodities have increased greatly, except gold, which as the standard of value is fixed at $20.67 per ounce.

"The great increase in the cost of gold mining has curtailed operations and compelled many mines to close. The passage of this bill would be of great assistance to the gold miner, not alone as a direct relief, but as a measure of the stimulation to the industry. Every possible assistance in the way of legislation, both federal and state, must be given to the gold mining industry."

0

RAY L. RILEY OUGHT TO BE NOMINATED

Acceptance by former Chief Justice Louis W. Myers of the Supreme Court of California, of the post of chairman of the Southern California campaign committee for Ray L. Riley, is announced from Los Angeles. This completes the State-wide organization backing the State Controller's candidacy for re-election. The Northern California Committee was completed sometime ago with the appointment as chairman of Charles A. Shurtleff, former associate justice.

Local committees of volunteer workers have been formed in practically every community in the state, according to Arthur W. Brouillet, prominent San Francisco attorney, who is acting as Riley's campaign manager. Members of these local committees are making a personal campaign for the State Controller, and already pledges of support have been received from thousands of leading citizens throughout the state. At a recent meeting of the campaign committe, Judge Shurtleff said:

"Ray L. Riley ought to be nominated by a record vote. He has served the people as State Controller for nine years. The importance of his work cannot be over-estimated. All revenue collections are carried on by his department, and no money can be paid out without his approval. That he is honest and fearless, as well as able and experienced, goes without saying. He was California's first Real Estate Commissioner, and as every realtor knows, performed a great service in the efficient organization of that department. Every citizen who appreciates efficiency in public office should vote for Ray L. Riley and should interest others to do the same."

SAN FRANCISCO STOCK QUOTATIONS

From GARTLAND & WALKER

San Francisco, Aug. 1,—As noted last week, trading in mining shares is undergoing a chage and was more noticable this week. Gradually more zest is shown in the trading, prices are moving slightly higher and the volumne of business is on the increase. For the first time in many months the public is coming back into the market. This is evidenced by the upward turn of some half dozen stocks.

The fact that there will be a reciprocal understanding between the San Francisco Mining Exchange and the New York Mining Exchange when the latter opens on September 10 will go a long way towards strengthening stocks in San Francisco and at the same time give a tone to trading that has not been witnessed in many years.

For the first time in many months stocks traded in during the past week have been much stronger. Behind a number of these securities are devlopments that as yet have in no wist been reflected in the market. Gold Hill, as predicted has started moving, jumping from 20 cents to 35 within the past two weeks. Genii has been one of the most active stocks and reached a new high of 65. Belmont Osborn is being accumulated in a manner that shows future activity in the stock. Union Consolidated has been somewhat erratic but toward the close of the week was much stronger on account of assessment paid. Idaho Maryland, although not active has been climbing up to higher prices. Aladdin and Belmont Metals have been sold at better prices.—Nevada Mining Press.

Sacramento. Calif.

CAPTIAL SOON COMING FOR DEVELOPING MINES

Economic laws cannot be ignored even though their operating may be temoprarily clouded by abnormal conditions. This is evidenced by the present situation with respect to the mining of gold. While it is difficult to understand that the gold unit, which is the foundation of our financial structure in this country, increases or diminishes in value according to business conditions, nevertheless it is true, although the fluctuation in value is indicated by purchasing power only. During the period of high prices when the purchasing power of the gold unit was at its lowest ebb, mining operations were impractical because of high labor and material costs. Moreover capital could be employed in other directions in a more profitable fashion. The slump in thestock market has had the effect of not only reducing the price of stocks consistent with their earning power, but it has divorced an enormous volume of capital for invest ment purposes in other directions.

There is a direct relationship between the volume of gold in circulation and the necessity for additional basic money to carry on the commerce of hte world. Now that the per capita circulation of gold money is decreasing with the consequent increase in purchasing power the price balance between profit and loss in mining operations has again been restered to the credit side of the ledger and I look forward to a marked revival in gold mining throughout California and the world. This revival is of great interest to the Mother Lode country inasmuch as ample capital will soon be forthcoming to reopen old mines and develop new ones. The movement is well under way as indicated by the many inquiries along the Mother Lode regarding mining property that have been closed down for several years.

Idle dollars safely placed increase incomes

SAFETY
CONVENIENCE
AVAILABILITY

There was a time, not long ago, when folks thought or cared little about incomes from money. They merely put away a few dollars for the future, whenever conditions would permit.

Today money cannot be spared to lie idle in chests or strong boxes. Everyone faces the need for more money to meet the requirements of present day living conditions. Everyone is trying to command a larger salary, or increase business profits.

If you are looking for a better way to place your funds—where they will be safe and yet bring a substantial return—invest with Italian National Building & Loan Association.

You owe it to yourself and family to receive a substantial return on your money. Start today on the road to independence by increasing your income the safest way.

During a limited period, each person opening an account for $10.00 or more will receive a useful gift.

COZY CORNER CHAT

The history of the Hoge Development Company is an excellent example of the reward of patience and persistancy in the mining game. This was coupled, of course, with the great faith of the president of the company, Arthur W. Hoge that the pay rock was there.

For years Mr. Hoge has doggedly persisted in pursuing the elusive color with discouraging results. The company behind him, consisting namely of relatives and affluent friensds, had faith in their president and continued to finance him. Theie faith is being amply rewarded. Strike after strike has been made in the oge mine in the past two months each one ricer than the one before.

Nevada City and the mining industry at large congratulate Mr. Hoge and wish him continued success.

There are a number of excellent mining properties in the district that only need enough capital and right management to put them on a excellent producing basis.

Great interest was taken in the announcement in The Nugget last week of the New Englands' acquisition of the Champion group. This will mean a great deal to Nevada City and the business men of the community are awaiting with interest news of Mr. Archibald's financing program in the east.

The Editor felt last week like the cartoon "WHEN A FELLOW NEEDS A FRIEND." With a paper to edit and being confined to her home was a severe test. However with the aid of several friends last Monday's issue was one of the best Nuggets ever printed. We gratefully acknowledge the assistance and tender our sincere thanks.

As election day draws near our thoughts turn toward the candidates seeking office.

In the county only three contests are being waged. Two three-cornered fights in the District Attorney's office and Sheriff's Office and the two-sided Coroner's contest.

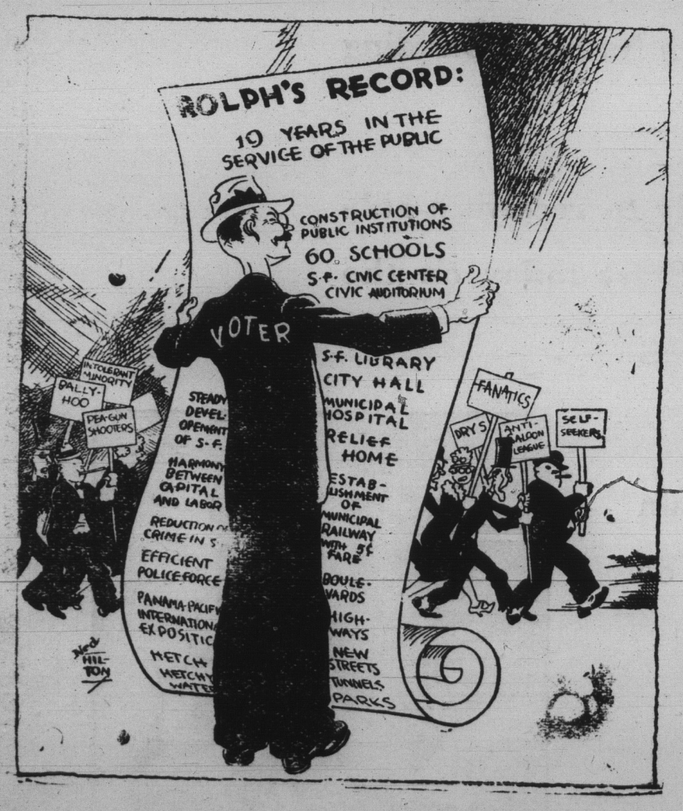
The local men are to be complimented in which the clean manner in which their campaigns are being conducted in contrast to the mud-slinging and underhanded methods found in some of the state contests.

This is true also of the assembly fight. "Jerry" Seawell tells his friends that Maurice Daubins is a fine fellow and Maurice Daubins heartily returns the compliment. We think they are both excellent men only we feel that since "Jerry" made good he should be returned for another term at last.

In the county office fights the candidates have made a thorough canvass among the voters making it possible to meet them personally and form their own opinion. Election day will tell its own story.

THE VOTER KNOWS HOW AND WHY

(Courtesy Sausalito News)



The Voter, faced squarely with the unassailable record of the almost unparalleled achievements of James Rolph, Jr., does not "see" the antics of the bally-hoo crowd—each with a small private axe to grind. The Voter knows that Rolph is more a builder than a politician and that he will become Governor despite the opposition of various frenzied lobbying factions. Rolph's record is what the Voter is vitally interested in and when it comes down to brass tacks the Voter is going to make a governor out of this humanitarian man of achievement, "Rolph, theBuilder."

CAMPTONVILLE JOTS

CAMPTONVILLE, August 12.—(Special to Th eNugget.)— Mr. and Mrs. B. F. MMcNaught and Mrs. Seymour G. Smith of Sleighville House motored to Marysville Tuesday on a short business visit.

Julius E. Pauly and Acton M. Cleveland motored to Grass Valley and Nevada City on a short business visit.

Mr. and Mrs. Cody Locke and little daughter, former residents, have arrived from Richmond, where Mr. Locke is employed by the Standard Oil Company. There are en route to Forest City where they will visit with relatives.

Ralph Brown, connected with highway construction work between Downieville and Sierra City, was in this city Wednesday. Henry O'Neill accompanied him on his return and will be employed as tool sharpener on the construction job.

Mrs. Adda Binning and Mrs. Retta Morris of Oakland, visited their aunt, They took a ride over the now practically completed Tahoe-Ukiah Highway to the vicinity of the junction and were much impressed with its beauty.

Garth Flint of Oakland spent the week-end with his grandmother, Mrs. M. Grimes. Upon his return Sunday afternoon he was accompanied by his aunt, Mrs. W. H. Warneeke and her two children, Mary Jane and Walter, who will visit in the bay section for the next two weeks.

FRANK MERRIAM FOR LIEUTENANT GOVERNOR

The Nugget is for Frank F. Merriam for Lieutenant Governor. And every voter in Placer, Nevada and the other mining counties should likewis be for him. Not because he is chairman of the State Republican Central Cmmittee; not because he hails from Long Beach; and not particularly because he voted the Seawell hydraulic mining bill out of the Senate Finance Committee at the last session of the legislature; but because of his fairness. Jerry Seawell needed just one vote to get his bill on the floor of the senate, so that it could be argued and debataed on its merits. It showed that Frank Merriam was a fair man; an honest, conscientious legislator. Elbert AdamsAdams did the same thing in the Assembly and the miners, and those in sympathy with the mining cause, should never forget these two men. More than that, Frank Merriam deserves the vote and support and good will of all those who velieve in fairness, whether they are in favor of hydrauli mining or not.

Let's remember Frank Merriam and give him our vote at the August Primary.

Seawell for Merriam

Assemblyman Jerry Seawell is strong for Frank Merriam. When asked the question the other day, Seawell said: "Yes, I am for Frank Merriam for Lieutenant Governor, and I am going to do all I an. I believe in voting for your friends.' '

PUBLICATION WILL HELP SELL CALIFORNIA IN EAST

California and North Sacramento are receiving national puolicity this week through the distribution of the four annual edition of the California Markets Survey and Newspaper Directory of the California Newspaper Publishers Association of which The Nugget is a member.

Official 1930 census figures, vital, manufacturing and retail statistics relating to the district north of the American River and its trading area are contained in the 138 pages of complete information regarding California.

An index in the front of the book lists eevry newspaper in California and gives available pertinent information concerning each. Following the index are arranegd complete data on the more than 300 cities and towns represented by the membership of the California Newspaper Association.

"California The Growing Market" is the theme of the book this year with the following preface:

"California has been proven the fastest growing market in the United States by the official government 1930 census figures.

"California was the greatest gainer in population among the states of the Union for the decennial period from 1920 to 1930.

"California's percentage of increase was 64.6 as compared to the entire United States with 17.4 per cent.

"As with the population figures, government officials have shown how the per capita buying power of the average California family is high above that of the average American family. And an added lure to the advertising dollar is the realization that California offers an advertising conscious audience unequalled in any similar market."

DURING PAST WEEK SOCIETY HAPPENINGS

MRS. E. M. RECTOR HOSTESS AT DELIFHTFUL PARTY

Mrs. E. M. Rector was hostess on Saturday afternoon at a delightful party complementing her sister, Mrs. Carl A. Libbey of Eureka.

Fifty guests enjoyed the luncheon and the games which followed:

Mrs. E. W. Schmidt and Mrs. Gove C. Celio held the high score in auction bridge. Mrs. Carl Libbey, Mrs. Beth West and Mrs. Geo. W. Starr. The mah jongg winners were Mrs. W. H. Hosking of Long Beach and Mrs. W. G. Richards.

Mrs. Libbey is an accomplished soloist and delighted the guests with several vocal numbers. Mrs. Gove Celio and Mrs. A. B. Foote also sang beautifully. Mrs. Betty West rendered a piano solo.

MISS KATHERINE HOGAN REVEALS ENGAGEMENT

An announcement of unusual interest was made public, last week in the engagement of Miss Katherine Elizabeth Hogan of this city to William Waite Morgan of Oakland.

The romance dates back to school days which they both attended locally.

Miss Hogan is a graduate of the University of California. She has been teaching in Smartsville for the past year. Mr. Morgan isa nephew of Mrs. F. T. Nilon .He holds a responsible position in an Oakland bank.

MRS. OTTO SCHIFFNER HAS DELIGHTFUL PARTY

Mrs. Otto Schiffner entertained about sixteen ladies at a bridge luncheon.

The luncheon was served at one large table in the dining room which was beautifully decorated with flowers. After the luncheon bridge was played for several hours, first prize going to Mrs. E. J. N. Ott, second prize to Mrs. Gordon Bettles and the consolation prize to Mrs. Ew Bosch.

The out of town guests included Mrs. Ed Bosch of Winnemucca; Mrs James K. Davis, Mrs. Jewett Adams, and Mrs. Sessions of San Francisco; Mrs. H. S. Bradley and Mrs George Legg of Berkeley

FARM BUREAU HOLDS RECEPTION TUESDAY

A public receptio nwas given in Grass Valley under the auspices oi the Farm Bureau last Tuesday evening to Mr. and Mrs. Herman Graser. A large number attended representing both the farming section and business section of Grass Valley.

LOW GRADE ORE PAYS BEST AT UTAH MINE

By GAIL MARTIN

Salt Lake City, Aug. 1—Some interesting and valuable facts concerning Utah non-ferrous mining are brought out by a study of the reports made to the state board of equalization by Utah companies.

The first of these is that the most money in Utah was made in 1929 as in every other year by the Utah Copper Co. from treating the lowest grade ore mined in the state. Utah Copper, with an ore containin lgess value than coal or a gross of $2.99 a ton, amassed a total gross yield of $53,125,300 from the mining of 17,724100 tons of ore.

The richest ore was shipped by Loeffler Palmer from his "one man" Rube mine in the Deep Creek district, Gold Hill, Utah. Palmer operates most of the time alone. He mines narrow seams of gold quartz. A graduate engineer, assayer and expert miner of wide experience, he is able to clean up a tidy sum each year. During 1929 his product had an average per ton value of $105.20 His mining cost was $27.10, the highest in the state supplying proof for the mining axiom that the higher rade the product the hiher will be the cost of mining.

Utah's only other gold mine reporting net proceeds is the Eureka Standard of the Tintic Standard Mining Co. The Eureka Standard's product averaged $23.03 in gold with mining costs of $11.03 a ton.

Next to the Utah Copper the largest producers were two silver-lead mines, the Silver King Coalition of Park City with a gross yield of $4,868,969 and the Tintic Standard of Eureka with $4,275,543. The next largest producers were North Lily with a production of $2,484,552 in metals and Park Utah with $2,808,-089.

The Silver King Coalition shipped the highest grade product which ran $98.37 a ton. All of the Silver King Coalition ore with the exception of a few carloads was concentrated in the Silver King Coalition flotation mill.

Tintic Standard shipped the highest grade crude ore. During 1929 the product of the mine averaged $38.78 a ton, a remarkably high grade. North Lily came second with an average of $34.08 a ton.

The Bingham Prospect, the J. A. Hogle property, shipped the highest grade product from Bingham. Bingham Prospect ore averaged $22.79 during 1929.

Silver King Coalition led Park City shippers with regard to value of Park Utah third. However, in the product. New Quincy was second and matter of tonnage Park Utah far surpassed other Park City mines.

Some remarkably low mining costs were attained during 1929 by Tintic Mines. Centennial Eureka costs were but $1.74 a ton and Empire Mines $3.43 a very low average for this type of mining.

Tintic Standard costs amounted to $12.08 for the year, North Lily to $8.77 a ton and Silver King Coalition $3.57 a ton. Utah Copper with a cost of 44c a ton was, of course, the lowest cost producer in Utah. Bingham Prospect's cost amounted to $8.78 a ton.

Utah Copper led with net proceeds of $26,526,766, or $16.37 per share and dividend disbursements for the year were $16.37.

Silver King Coalition had the largest net proceeds total of the silver-lead mines, this item amounting to $1,726514 or $1.41 a share. Dividends of $1.20 a share were paid, leaving 21c a share for surplus. Incidentally, it might be noted that the Silver King Coalition was the only company to keep its dividend disbursements within the compass of its net proceeds.

Tintic Standard's net proceeds amounted to $1,190,639 or $1.03 a share as compared with dividend disbursements of $1.30 a share.—Mining Press.

Vacation
fares & trains

SOUTHERN PACIFIC takes a personal interest in your vacation plans. Train schedules are arranged to give you maximum time there—to get you there and back swiftly and comfortably.

To many points, overnight Pullmans save the precious daylight hours for play.

Fares, too, are planned especially for vacations. Low summer roundtrips with 16-day return limits are just right for a two-weeks' vacation. Week-end and Sunday roundtrips to nearby points are proportionately lower.

There is one man in every State that can serve all of its people best

JAMES ROLPH, JR.,
is a true representative of the spirit of California.

James Rolph, Jr., has reflected the highest credit upon the community of which he has been the Mayor for nearly twenty years.

James Rolph, Jr., is exceptionally well equipped to foster and expand the affection that the people of all the other States entertain for California.

James Rolph, Jr., interprets correctly and accurately the ideals and impulses of the people of California.

James Rolph, Jr., better than any other man, can break down what remains of the sectional prejudices in California, which he has constantly striven to abate.

James Rolph, Jr., is California born and raised, and in the twenty years of his public service he has built up a record of achievement that qualifies him as the one man that can best serve all the people of California.
